APEKSHA K A

Python Developer · Django · Web Development

Thirthahalli, Shimoga | +91 9972353045 | apekshag677@gmail.com | LinkedIn | GitHub

SUMMARY

Final-year B.E. (ISE) student with hands-on experience in Python, Django, and HTML. Completed an LSTM-based spam detection project achieving 95%+ accuracy. Currently building practical web development skills through a 90-day internship at Eleanor Technologies. Eager to contribute to real-world software projects in a growth-oriented team.

EDUCATION

B.E. — Information Science & Engineering | JNNCE, Shimoga *2022 – 2026*

Jawaharlal Nehru National College of Engineering | CGPA: 8.2

Class 12 (PUC) | KSPUC *2020 – 2022*

Class 10 (SSLC / ICSE) | National Residential School *2020*

INTERNSHIP

Web Development Intern | Eleanor Technologies *Current · 90 Working Days*

- Learning and applying Python for scripting and backend logic under professional mentorship
- Building and styling web pages using HTML as part of live project tasks
- Developing web applications using the Django framework, working on views, templates, and URL routing

PROJECT

Deep Learning Based Email Spam Detection

Python · LSTM · NLP · Streamlit · SMS Spam Collection Dataset

- Built an AI-powered email spam classifier using LSTM networks and NLP text processing techniques
- Preprocessed raw email data by removing symbols, numbers, and stopwords for cleaner model inputs
- Trained on the SMS Spam Collection Dataset, achieving over 95% classification accuracy
- Deployed as a Streamlit web app enabling real-time spam detection through an interactive interface

EXPERIENCE & LEADERSHIP

IEEE Student Member & Event Coordinator | JNNCE

- Active member of IEEE JNNCE student chapter, engaging in technical seminars and peer learning
- Coordinated YUGMA Techfest at JNNCE — managed team assignments, schedules, and event logistics

TECHNICAL SKILLS

Languages: Python, HTML
Framework: Django
ML / AI: LSTM, NLP, Streamlit
Tools: Visual Studio Code, Git

CERTIFICATION

Programming in Java — NPTEL (National Programme on Technology Enhanced Learning)
